1. Introduction

The world of cryptocurrency is constantly evolving, combining innovation and entertainment in new ways. Meme coins have become one of the most dynamic and attention-grabbing segments in this space. \$TATING is a meme coin project developed on the Solana blockchain, designed to grow rapidly with the support of its community. \$TATING aims to blend fun with financial opportunities, providing investors with a unique experience.

2. Mission and Vision

Mission:

The mission of \$TATING is to create a community-driven meme coin ecosystem, built on the power of collective support, to make an impact in the cryptocurrency world. We aim to offer a token that is not just another meme coin, but one that provides entertainment and real utility to its holders, fostering long-term engagement and growth.

Vision:

\$TATING envisions becoming one of the leading meme coins on the Solana network, known for its strong community, innovative tokenomics, and unique value propositions. We strive to make \$TATING a symbol of both fun and success in the crypto market.

3. Why Solana?

Solana was chosen as the blockchain for \$TATING due to its high throughput, low transaction costs, and growing ecosystem. Unlike many other networks, Solana's scalability ensures that \$TATING holders can transfer tokens quickly and cheaply, making it more accessible to a broader range of users. Solana's vibrant developer community and its focus on innovation align perfectly with the goals of \$TATING.

4. Tokenomics

- Token Name: \$TATING
- Total Supply: 1,000,000,000 \$TATING
- Network: Solana

- Initial Distribution:

- +77.3% will be distributed to the community via pump.fun.
- Liquidity Pool: +20.6% will be reserved for liquidity and burned by PumpFun after the Raydium listing.
- Development and marketing fund: ~2% will be acquired by the developers for future development, partnerships and marketing initiatives.

\$TATING will also include a deflationary mechanism, where a portion of tokens is burned during specific events, ensuring a decreasing supply over time.

5. Roadmap

Phase 1: Launch and Community Building

- Token creation on Solana
- Website and social media launch
- Initial marketing campaigns
- Bounty programs to grow the community

Phase 2: Liquidity and Listings

- Listing on decentralized exchanges (DEXs)
- Partnerships with other meme coins and projects
- Liquidity pool creation

Phase 3: Expansion and Use Cases

- Introducing rewards for long-term holders
 - Development of \$TATING-specific NFTs
 - Partnerships with influencers and brands for further visibility
-

6. Community and Governance

\$TATING's strength comes from its community. Governance will be largely decentralized, allowing holders to vote on key proposals, such as the introduction of new features, partnerships, and tokenomics adjustments. The goal is to ensure that \$TATING remains a community-led project where decisions are made for the benefit of its users.

7. Safety and Compliance with Regulations

\$TATING is based on the secure Solana blockchain and benefits from its advanced consensus mechanisms and cryptographic principles.

We will conduct regular security audits to ensure that the smart contracts that govern \$TATING remain secure and tamper-proof.

8. Conclusion

\$TATING is not just another meme coin. It's a movement backed by a strong community, innovative tokenomics, and a scalable blockchain. By choosing Solana as its foundation, \$TATING aims to deliver fast, affordable, and secure transactions, all while creating a fun and rewarding ecosystem for its holders.

9. Disclaimer
